

MODUL•X™

S E R I E S BY CITYSAFE

SERIES 4

This is the confidential and secret division of the MODUL•X Series. All products are designed and manufactured to clients' requirements and configurations.

CONFIDENTIAL

X•clusive

confidentiality and custom designed

CITYSAFE can create a safe, vault room, or safe room that will not only meet, but exceed your security requirements. The MODUL•X Series 4 is built to your specifications. Since MODUL•X Series 4 is built solely to the client's needs with strict confidentiality, drawings are not submitted to Underwriters Laboratories or any other organization.

MODUL•X SERIES 4 Premium Safes

All aspects of the safe are custom designed to the client's needs. Barriers designed for extremely high value protection as required by Lloyds of London and Chubb; including copper, stainless steel, aluminum, graphite, cobalt and titanium.

Exotic Wood Interior Cabinetry
Interior Lighting
Automotive High Gloss Paint
Pedestal Bases

Vault Rooms

Specifically designed to maximize floor load specifications with insurance risk level requirements. Many specialty designs to fit within any configuration or delivery limitation.

Safe Rooms

The ultimate in protection. Uniquely designed to stop both machine gun level ballistics as well as professional level burglary attacks giving time for our clients to institute immediate counter attacks within the the predesigned command center.
