## In-Room Safe

### Standard Features

- 3 to 6 digit user code
- 3 bad codes puts lock in lock-out
- Easy-to-read LCD screen
- 4 anchoring holes (2 in back, 2 in bottom)
- Lock can be operated using the keypad or the credit card swipe slot

**For large quantities,  
please ask for a quotation.**

Gardall's new in-room safe has a durable powder coated finish and a superior electronic locking system. The highly reliable lock is a one-time use combination that is set by the user for each opening. It can also be set by swiping a credit card through the slot in the lock. Every lock has a manual by-pass key to open the lock if a combination is lost.

Model	Outside Dimensions			Inside Dimensions			Weight (lbs.)
	H	W	D	H	W	D	
GH5-G-E	9½"	16½"	15"	7"	14"	14"	32
