

HERRING-HALL-MARVIN®

I HOUR CLASS 150 COMPUTER SAFE

FOR PROTECTION AGAINST
FIRE SMOKE HEAT WATER MAGNETS

Thanks to the computer, records formerly kept on paper in a number of different locations can now be reduced to tape and concentrated in a single area. While this produces many benefits, it also adds a serious hazard. A fire in this area . . . where records are concentrated . . . could be disastrous.

The Computer Safe is designed to prevent loss from such disasters by protecting vital computer media against fire, heat, smoke, water, humidity . . . and magnets as powerful as 2000 Gauss.

If computer media are vital to your business, give them the protection they deserve, with a Herring-Hall-Marvin Computer Safe.
