

ISM SUPER TREASURY

Small Models

Construction The body and door of this safe are filled with a casting of Alchronite, ISM's one piece cast barrier material. Its unique one-piece "tailored" body cast provides consistent protection throughout, proven to withstand concentrated torch, flux, tool and explosive attacks.

Locking Mechanism The safe is secured by a UL Group 1 combination lock. *(Note that model ST2719-16 is fitted with a UL Group 1 combination lock and a high security key lock.)* This lock is protected internally with a tempered glass plate activated relocking mechanism, which, upon attack, secures the boltwork in the locked position.

Door Swing Doors are hinged on the right (as you face the safe). *Opposite side swing doors are available, and usually take 60-120 days to supply.*

Lock Options LaGard UL Listed Digital Lock with a Mechanical Override Feature. *Please inquire for details.*

Finish Safes are finished with a durable textured paint surface. Charcoal gray is the standard color. *Custom colors and finishes are available.*

Insurance Coverage This safe wears the UL TRTL-30x6 label, which is relied upon by the insurance industry to protect the highest values. *Please call for more details.*
