

# High-Security Composite Safes

## Gibraltar TL-15, TL-30 & TL-30X6

When unyielding security from multiple threats is an absolute necessity, Meilink's Gibraltar series safes provide the solution to protect the highest valued assets. Available in three increasingly secure TL burglary ratings, including the six-sided protection of our TL-30X6. A variety of custom interiors are available to meet individual specifications. The Gibraltar delivers the very best defense against severe tool attacks, and all models carry the 1-hour Omega Point Laboratories  $\Omega$  Fire Label.

Completely customizable interiors to fit any need.

**KX7233**  
Optional aluminum pull handle, tri-spoke handle and double-bitted key lock protected by a glass relocker.

### Gibraltar JC4524-F

TL-15 is shown with an optional 8" pull handle. Three shelves are standard with this model.

### Gibraltar KC6524

TL-30 shown with optional electronic lock.

### Gibraltar KX7233SF

TL-30X6 shown with optional tri-spoke handle, pull handle and secondary key lock.

## Accessories

The majority of Meilink models come with multiple interior options, including lockers, extra shelves and drawers. Choose from pull handles and spoke handles to configure your safe for the job at hand. A wide variety of locking options can be tailored to your purpose, including time locks, auxiliary key locks and the latest in electronic locking options.

### KC6524

Shown with optional S & G electronic lock for dual control or day lock.

Meilink is the only manufacturer to offer a UL fire label with the TL-15 or TL-30 burglary rating. Optional lockers and drawers are available on all models.

<sup>1</sup>Includes 1 7/8" for door handles and dials

### Burglary Ratings

 The lock icon designates the safe's ability to protect against unauthorized entry and theft. The number represents the increasing level of burglary protection within the safe line.

These safes come with a lifetime replacement warranty in case of fire and a 1-year limited warranty.

### Fire Ratings

 The fire icon designates the safe's ability to protect against fire damage. The number in the icon represents the time frame of the test the safe has passed. Icons with a (+) represent that the safe has earned UL's impact rating.
