

Mosler

An American-Standard Company
Hamilton, Ohio 45012

Combination Unit

CU 1015

The Space Saver

This quality money safe and records locker is compact enough to set behind the counter or in your on-the-floor manager's office without occupying much-needed space. The CU1015 is designed in a piggyback fashion; the money safe on top of the records locker. This gives you the security and storage conveniences of both units in the total floor space of a records locker alone (23¹/₈" x 28").

Good things **do** come in small packages as evidenced by the quality security features of this Mosler unit. Both the money safe and the records locker are equipped with Mosler's Counterspy combination dials and an Underwriters' Laboratories Inc. listed relocking device.

Both the money safe and the records locker are designed to provide more than ample space for the storage of cash, money trays, and records in quantities typical of restaurants, supermarkets, retail stores, etc.

The money safe qualifies for a Mercantile Safe low class "E" insurance rate and a 10% discount for its UL listed relocking device. It also meets the "E" classification requirements for Money and Security Broad Form Policies.

DIMENSIONS	HIGH	WIDE	DEEP	CLEAR DOOR OPENING
